Article title: Do You See What I See? Longitudinal Associations Between Mothers' and Adolescents' Perceptions of Their Relationship and Adolescent Internalizing Symptoms

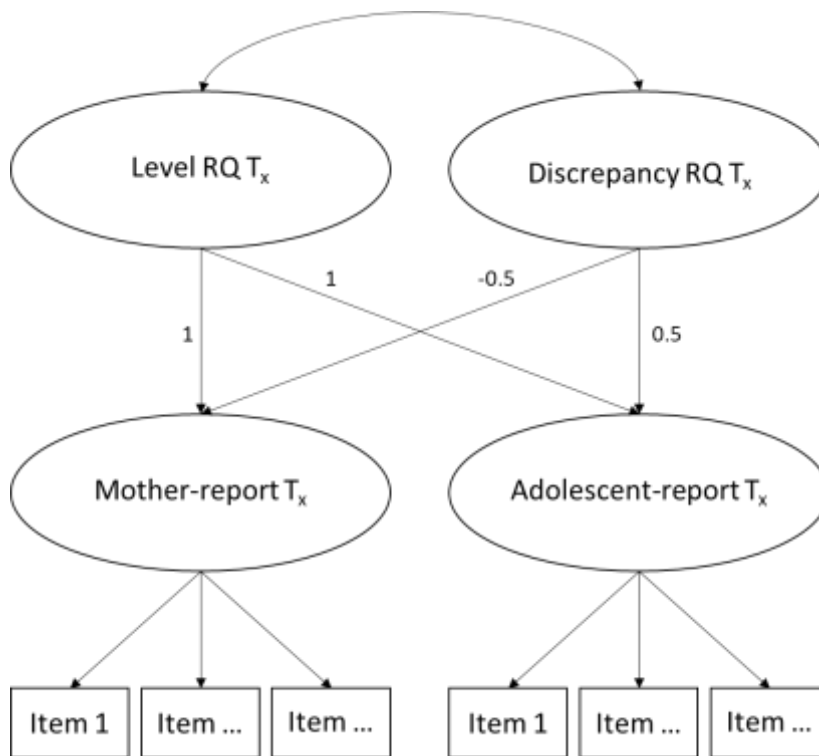

Journal name: *Research on Child and Adolescent Psychopathology*

Author names: Stefanie A. Nelemans, Stefanos Mastrotheodoros, Leyla Çiftçi, Wim Meeus & Susan Branje

Affiliation and e-mail address of the corresponding author: Stefanie A. Nelemans; Department of Youth and Family, Utrecht University, Utrecht, the Netherlands; s.a.nelemans@uu.nl

Figure 2.1

Simplified Graphical Representation of the Higher-Order Factor-Analytical Part of the Latent Congruence Model, Distinguishing Between Mean-Levels of Conflict or Warmth in the Mother-Adolescent Relationship and Discrepancies Between Mothers and Adolescents in their Reports of Conflict or Warmth

Note. RQ = mother-adolescent relationship quality (referring to either conflict or warmth in the mother-adolescent relationship)
